

THE VISION OF THE UNIVERSITY OF JORDAN

A university excelling in pedagogy, research, and innovation and advancing in global standing

THE MISSION OF THE UNIVERSITY OF JORDAN

Providing students with fulfilling learning experiences, conducting knowledge-producing research, and building firm societal ties, within an environment conducive to creativity, innovation, and entrepreneurship: making efficient use of resources and forging fruitful partnerships.

THE VISION OF THE SCHOOL OF REHABILITATION SCIENCES

Leadership in the creation and development of knowledge, and in the preparation of human resources aspiring for excellence regionally and internationally

THE MISSION OF THE SCHOOL OF REHABILITATION SCIENCES

To excel in the preparation and training of model rehabilitation personnel, who participate in the health and community sector, and provide the local and regional community with appropriate rehabilitation services based on needs. Through educational curricula that facilitates the implementation of up to date rehabilitation services based on the best available evidence.

THE VISION OF THE DEPARTMENT OF PHYSIOTHERAPY

To be recognized as an outstanding educational program with high quality faculty members, staff and students

THE MISSION OF THE DEPARTMENT OF PHYSIOTHERAPY

To graduate professionals in the field of physical therapy who are to contribute to the health needs of society through education, scholarly activities, research, service and professional practice.

Course Syllabus

1	Course title	Therapeutic Exercise I
2	Course number	1801203
3	Credit hours	3 (2.1)
	Contact hours (theory, practical)	6 (2, 4)
4	Prerequisites/corequisites	Principles and ethics
5	Program title	B.Sc. in Physiotherapy
6	Program code	1801
7	Awarding institution	The University of Jordan
8	School	School of Rehabilitation Sciences
9	Department	Department of Physiotherapy
10	Course level	Undergraduate/ Second year
11	Year of study and semester (s)	2024/2025 – First semester
12	Other department (s) involved in teaching the course	None
13	Main teaching language	English
14	Delivery method	<input type="checkbox"/> Face to face learning <input checked="" type="checkbox"/> Blended <input type="checkbox"/> Fully online
15	Online platforms(s)	<input checked="" type="checkbox"/> Moodle <input checked="" type="checkbox"/> Microsoft Teams <input type="checkbox"/> Skype <input type="checkbox"/> Zoom <input checked="" type="checkbox"/> Others...YouTube
16	Issuing/Revision Date	5/10/2025

17 Course Coordinator:

Name: Dr. Dania Qutishat
 Phone number: 06-5355000- 23202
 Email: d.qutishat@ju.edu.jo
 Office number: 1st floor- Vice dean office
 Contact hours: Book an appointment through Teams

18 Other instructors:

Name: Nadeen Al-Ramahi
 Email: n.alramahi@ju.edu.jo
 Contact hours: upon request

19 Course Description:

This course is composed of theoretical and practical elements. The theoretical lectures cover an introduction of the concept of therapeutic exercise, flexibility exercises which include range of motion exercise, stretching exercise and mobilization. Lectures include case studies and discussion of the latest evidence. The practical element covers the flexibility exercises of range of motion, stretching and mobilization. Practical sessions are mainly based on peer modeling to master the skills and techniques learned through the semester.

20 Course aims and outcomes:

A- Aims:

- To provide students with the basic concept of therapeutic exercise and how it is related to the physical function of flexibility.
- To give the students the skills and confidence to apply what they have learned about therapeutic exercise into real case scenarios.
- To offer an interactive and stimulating approach of learning about the evidence based flexibility exercises.

B- Students Learning Outcomes (SLOs):

Upon successful completion of this course, students will be able to:

SLOs	SLO (1)	SLO (2)	SLO (3)	SLO (4)	SLO (5)	SLO (6)	SLO (7)	SLO (8)	SLO (9)	SLO (10)	SLO (11)
SLOs of the course											
1 Analyze the latest evidence regarding the design and prescription of ROM, stretching exercise and peripheral mobilization	x										
2 Define the theoretical aspect of ROM, Stretching exercises and Peripheral mobilization; definition, types, indications, precautions, contraindications and limitations.		x									
3 Design a flexibility physiotherapy program for healthy individuals and patients with different conditions								x			
4 Apply different types of ROM exercises, Stretching exercises and Peripheral mobilization in different starting positions							x				

Program SLOs:

1. Recognize, critically analyze and apply the conceptual frameworks and theoretical models underpinning physiotherapy practice
2. Demonstrate comprehension of background knowledge that informs sound physiotherapy practice
3. Demonstrate the ability to use online resources and technologies in professional development
4. Display a professional commitment to ethical practice by adhering to codes of conduct and moral frameworks that govern the practice of physiotherapy
5. Evaluate the importance of and critically appraise research findings to inform evidence-based practice such that these skills could be utilized in continuing self-development
6. Implement clinical reasoning, reflection, decision-making, and skillful application of physiotherapy techniques to deliver optimum physiotherapy management
7. Adhere to the professional standards of physiotherapy practice in terms of assessment, management, outcome measurement, and documentation
8. Display a willingness to promote healthy lifestyle and convey health messages to clients
9. Value the willingness to exercise autonomy while appreciating the challenges associated with delivering physiotherapy services
10. Display the ability to practice in a safe, effective, non-discriminatory, inter- and multi-disciplinary manner
11. Demonstrate effective oral and written communication with clients, carers, and health professionals

21. Topic Outline and Schedule:

Week	Lec	Topic	Learning Methods (Blended)	Evaluation Methods	Resources
1 5-9/10	1.1	Introduction	Online		Therapeutic exercise Kisner & Kolby 2023 or 2017
	1.2	ROM- overview			
	Lab-1	Positioning & posture	Face to Face	Practical exam	
2 12-16/10	2.1	ROM -types	Online		
	2.2	ROM- indications			
	Lab-2	ROM up-L	Face to Face	Practical exam	
3 19-23/10	3.1	ROM-precautions	Online		Therapeutic exercise Kisner & Kolby 2023 or 2017
	3.2	ROM case studies			
	Lab-3	ROM LL+ neck + trunk	Face to Face	Practical exam	
4 26-30/10	4.1	Stretching overview	Online		Therapeutic exercise Kisner & Kolby 2023 or 2017
	4.2	Stretching types			
	Lab-4	Self ROM	Face to Face	Practical exam	
5 2-6/11	5.1	Stretching determinants	Online		Therapeutic exercise Kisner & Kolby 2023 or 2017
	5.2	Stretching biomechanics			
	Lab-5	Stretching up-L	Face to Face	Practical exam	
6 9-13/11	6.1	Stretching indications	Online		Therapeutic exercise Kisner & Kolby 2023 or 2017
	6.2	Stretching precautions			
	Lab-6	Stretching LL	Face to Face	Practical exam	
7 16-20/11	7.1	Stretching methods	Online		Therapeutic exercise Kisner & Kolby 2023 or 2017
	7.2	Stretching mass market			
	Lab-7	Stretching neck + trunk	Face to Face	Practical exam	
8 23-27/11	8.1	Mobilization overview	Online		Therapeutic exercise Kisner & Kolby 2023 or 2017
	8.2	Mobilization types			
	Lab-8	Self-Stretching	Face to Face	Practical exam	
9 30/11-4/12	9.1	Mobilization grading	Online		Therapeutic exercise Kisner & Kolby 2023 or 2017
	9.2	Mobilization grading			
	Lab-9	Mobilization up-L	Face to Face	Practical exam	

10 7-11/12	10.1	Mobilization progression	Online			
	10.2	Mobilization program				
	Lab-10	Practical skills check point	Face to Face	Practical exam		
11 14-18/12	11.1	Mobilization precautions	Online			
	11.2	Mobilization case studies				
	Lab-11	Mobilization up-L	Face to Face	Practical exam		
12 21-25/12	12.1	Mixed case studies	Online			
	12.2	Mixed case studies				
	Lab-12	Mobilization LL	Face to Face	Practical exam		
13 28/12-1/1	13.1	EBP discussion	Online			
	13.2	EBP discussion				
	Lab-13	Mobilization LL	Face to Face	Practical exam		
14 4-8/1	14.1	Revision (Q & A)	Online			
	14.2	Revision				
	Lab-14	Revision	Face to Face	Practical exam		
15 11-15/1	15.1	Final exam practical				
	15.2					
	15.3					

22 Evaluation Methods:

Opportunities to demonstrate achievement of the SLOs are provided through the following assessment methods and requirements:

Evaluation Activity	Mark	Topic(s)	SLOs	Period (Week)	Platform
Mid Exam The exam includes only MCQs.	30%	ROM + stretching	All	Week 8	Campus
Practical skills check point.	20%	ROM + stretching	1,2,9,10,11	Week 8-9	Campus
Ongoing lab evaluation (preparation and participation)++	10%	All	1,2,9,10,11	Ongoing	Campus
Final Exam 20% Theory exam (MCQs). 20% Practical exam***	40%	All topics	All	Final Theory to be announced by registration. Final Practical Week 14	Campus

++ Ongoing lab evaluation will be given for the preparation before the lab and participation during the lab. You need to make sure that you are being consistent in showing your active involvement in the lab throughout the semester.

*** See the details of assessment criteria and rubric at the end of this document.

Important Dates:

- Mid exam period 23/11/2025- 4/12/2025
- Last date for withdrawal 13/1/2026

23 Course Requirements

Online lectures (asynchronous): Computer, tablet or smart phone, internet connection.

Onsite practical sessions:

- Infection control measures: sanitizer (provided by the student)
- Practical training related (provided by JU): Beds/ Mats/ Flat sheets/ Belts/ Towels/ Sanitizer/ wands/ pillows
- Practical training related (provided by the student): belt/ towel

Dress code for practical sessions: light cotton shirts/ t-shirts for the tops and cotton non-restrictive pants. Clean socks and easy to wear shoes. Scrubs are not allowed. Long hair to be tied and hijab should be light with only pin if necessary.

Nails (hands and feet) should be short and clean, and armpits shaved.

24 Course Policies:

A- Attendance policies:

- You are expected to attend all the classes and onsite practical sessions.
- In case of absence, it is your responsibility to monitor your own learning and catch up with any missed materials or activities.

B- Absences from exams and submitting assignments on time:

- Exams should be attended onsite unless there are severe circumstances (e.g. the death of a 1st degree family member, OR severe illness or major health condition, provided that you submit evidence). Make-up exams for the mid exam are subject to the instructor's confirmation.

C- Health and safety procedures:

- If you have any strong symptom that is flu related you should stay at home (e.g. fever, cough, sore throat).
- Bring your own sanitizer with you, make sure to use it frequently every 30 minutes or whenever you touch a surface or work with a colleague.
- Bring your own clothes (shorts and tops for the practical session) DO NOT SHARE your clothes with any of your colleague. Please make sure to wash clothes after every single use.

D- Honesty policy regarding cheating, plagiarism, misbehavior:

- Students are expected to observe all University guidelines pertaining to academic misconduct.
- Any work submitted by a student for academic credit must be the student's own work. Submission of work taken directly from another source (e.g., book, journal, internet, clinic forms, or another student work) will be considered plagiarism and the student/group will get a zero grade for that work if part of an assignment. In addition, if copying occurred, both the student who copied the work and the student who gave material to be copied (if applicable) will receive zero grade for the assignment.
- Students are expected to do work required for assignments on their own. Asking other instructors at the JU clinic or the staff, or other students to assist in or do any part of the assignment will negatively affect their grade on that assignment. The course instructor is the person the student needs to talk to if s/he has any difficulties pertaining to an assignment or project and is strongly encouraged to schedule an appointment with the instructor if such difficulties arise during the semester.
- Course materials prepared by the instructor, together with the content of all lectures and review sessions presented by the instructor are the property of the instructor.
- **Video and audio recording of lectures, and practical sessions without the consent of the instructor is strictly prohibited. Recording incidents will be formally reported as a violation of the privacy and code of conduct for this course.**
- Any forms of academic misconduct will be handled according to the University of Jordan guidelines

E- Grading policy:

- Grading for this course will be determined based upon the accumulation of points from a variety of assessment activities.

F- Available university services that support achievement in the course:

- The University of Jordan provides many services to support social, health, and mental well-being of students in general and students with disabilities in specific. Students are advised to visit the School of Students Affairs to learn more about those services.
- If you are a student with a disability for which you may request accommodations, please notify the staff of Services for Student with Disabilities (School of Students Affairs) as soon as possible. Please also contact the instructor as soon as possible (email is acceptable) so the appropriate accommodations for this course can be made.

25 References:

A- Required book(s), assigned reading and audio-visuals:

- Kisner C. and Kolby L. (2023) or (2017). Therapeutic exercise, foundations and techniques. 7th or 8th edition. DavisPlus.
- Brody L. and Hall C. (2017). Therapeutic exercise: moving toward function. 4th edition.

B- Recommended books, materials, and media:

ACSM website

C-YouTube channel: Dr.DaniaQutishat

26 Additional information:

- The course is supported with a e-learning course area. This provides students with course information and important course materials e.g. electronic copies of this handbook, hand-outs, ppt., and other course content. It also allows the students to communicate with each other and with the instructor for discussion purposes. You should log in your account regularly to check for any updates or announcements.
- This course builds on the knowledge and skill gained during other courses: **Principles of rehabilitation and ethics:** students implement the knowledge gained during this module to provide evident of implementation of professional physiotherapy standards and codes of ethics especially during practical sessions. **Anatomy I & II:** students need to review the surface anatomy for bony land marks and main muscles/ origin, insertion and function of muscles of the upper limb, lower limb, abdomen and back. **Physiology I & II:** Students need to review the physiology of the muscles and bones.
- **Video and audio recording of lectures, and practical sessions without the consent of the instructor is strictly prohibited. Recording incidents will be formally reported as a violation of the privacy and code of conduct for this course.**

If you have any queries, comments or suggestions you could email the instructor, send a message via e-learning or MT.

Rubric Assessment criteria for Practical checkpoint
Therapeutic Exercise-I
2025-2026

Skill/technique	Point	Assessment criteria
ROM 9 marks		
Positioning	3	Select an appropriate and safe starting position. Give alternative positions.
Handling	3	Apply the exercise smoothly and rhythmically. Use proper body mechanics.
Determinants	3	Select and apply the appropriate type and frequency.
Stretching 9 marks		
Positioning	3	Select an appropriate and safe starting position. Give alternative positions.
Handling	3	Apply the exercise smoothly and rhythmically. Use proper body mechanics.
Determinants	3	Select and apply the appropriate type, frequency, duration, intensity and speed.
Professional attitude	2	Act and behave with respect, confidence. Communicate effectively with the model/ assessor.
20		Total mark

ROM	Positioning	3	Appropriate and safe starting and end position. Give alternative/ modified positions.
		2	Appropriate starting and end position. No alternative or modified positions/ lacks safety.
		1-0	Inappropriate and unsafe position
	Handling	3	Smooth and rhythmic application of exercise. Proper use of body mechanics and demonstrate proper verbal cues.
		2	Smooth or rhythmic application of exercise. Inappropriate use of body mechanics or verbal cues.
		1-0	Jerky and not rhythmic application of exercise without using proper body mechanics or verbal cues.
	Determinants	3	Appropriate selection and application of type and frequency.
		2	Inappropriate selection OR application of type and frequency.
		1-0	Inappropriate selection AND application of type and frequency.
Stretching	Positioning	3	Appropriate selection of starting position. Give alternative/ modified positions.
		2	Appropriate selection of type of starting position. No alternative/ modified positions.
		1-0	Inappropriate selection of type of starting position.
	Handling	3	Smooth and rhythmic application of exercise. Proper use of body mechanics and demonstrate proper verbal cues.
		2	Smooth or rhythmic application of exercise. Inappropriate use of body mechanics or verbal cues.
		1-0	Jerky and not rhythmic application of exercise without using proper body mechanics or verbal cues.
	Determinants	3	Correct selection + appropriate application (type, frequency, duration, intensity, and speed of the stretching ex)
		2	Incorrect selection OR inappropriate application (type, frequency, duration, intensity, and speed of stretching ex)
		1-0	Incorrect selection + inappropriate application (type, frequency, duration, intensity, and speed of stretching ex)

Rubric and Assessment criteria or Final Practical Exam
Therapeutic Exercise-I
2025-2026

Skill/technique	Mark	Assessment criteria
ROM 3 marks		
Handling/ Positioning	3	Apply the exercise smoothly, rhythmically and safely from the right starting position. Give alternative positions if applicable and use proper body mechanics.
Stretching 3 marks		
Handling/ Positioning	3	Apply the exercise smoothly, rhythmically and safely from the right starting position. Give alternative positions if applicable and use proper body mechanics.
Peripheral Mobilization 12 marks (1 technique for the upper limb and 1 technique for the lower limb)		
Positioning	4	Select an appropriate and safe starting position. (Alternative positions/ progression)
Handling	4	Apply the exercise smoothly and rhythmically. Use proper body mechanics.
Grading	4	Select and apply the appropriate type of glide, distraction, grade and frequency.
Professional attitude	2	Act and behave with respect, confidence. Communicate effectively with the model/ assessor.
	20	Total mark

ROM	Positioning and Handling	3	Excellent application of the required exercise. Using safe starting and end position while paying attention to appropriate body mechanics and verbal cues. Give alternative/ modified positions.
		2	Good application of the required exercise. Using safe starting and end position while paying attention to appropriate body mechanics and verbal cues. Give alternative/ modified positions.
		1	Poor application of the required exercise. Jeopardizing safety or appropriate body mechanics or verbal cues.
		0	Unable to apply the required exercise.
Stretching	Positioning and Handling	3	Excellent application of the required exercise. Using safe starting and end position while paying attention to appropriate body mechanics and verbal cues. Give alternative/ modified positions.
		2	Good application of the required exercise. Using safe starting and end position while paying attention to appropriate body mechanics and verbal cues. Give alternative/ modified positions.
		1	Poor application of the required exercise. Jeopardizing safety or appropriate body mechanics or verbal cues.
		0	Unable to apply the required exercise.
Mobilization**	Positioning	4	Appropriate and safe selection of starting position/ end position. Give alternative positions and progression.
		3	Appropriate selection of starting position/ end position. (No alternative positions or progression lacks safety).
		2-0	Inappropriate and unsafe selection of starting position/ end position. No alternative positions and progression.
	Handling	4	Smooth and rhythmic application of exercise + Proper use of body mechanics + demonstrate proper verbal cues.
	3	Smooth or rhythmic application of exercise. Inappropriate use of body mechanics or verbal cues.	
	2-0	Jerky and not rhythmic application of exercise without using proper body mechanics or verbal cues.	
	Grading	4	Correct selection and appropriate application of the type of glide, distraction, grade and frequency.
	3	Incorrect selection OR inappropriate application of the type of glide distraction, grade and frequency.	
	2-0	Incorrect selection AND inappropriate application of the type of glide distraction, grade and frequency.	
Professional attitude	2	Respectful and confident act and behavior. Effective communication with the model and assessor.	
	1	Disrespectful OR not confident act and behavior. Ineffective communication with the model or assessor.	
	0	Disrespectful AND not confident act and behavior. Ineffective communication with the model or assessor.	

** 6 marks for each question (you are required to answer 2 questions for the mobilization/ one technique for the upper limb and one technique for the lower limb).
