ABOUT ME

As a professional and educator with over 10 years of diverse experience, I've been dedicated to helping individuals overcome challenges and thrive in various life contexts. My strong commitment lies in supporting university students to realize their full potential in their studies while mastering evidence-based methods and techniques, particularly within the field of Occupational Therapy. My robust teaching philosophy and knowledge of effective methods have been instrumental in motivating students to develop their expertise in this discipline. With a deep aspiration to become a university lecturer, I aim to utilize my superior skills in teaching and clinical supervision, contributing to interdisciplinary rehabilitation research, and actively participating in shaping professional regulations. This extends particularly to matters related to accessibility and individuals with disabilities. Moreover, I am actively seeking a challenging career in psychiatric mental health occupational therapy research, education, and practice, with a keen focus on achieving professional growth and making a meaningful contribution to the well-being of patients, society, and the occupational therapy profession.
